eMedNY Integration: Create Patient Profile Instantly

Aphelia is connected to eMedNY. Create patient profile instantly with a valid Medicaid ID.

Validate Thousands of Medicaid ID with One Click

All Medicaid IDs in the system can be validated against eMedNY with a single click. Expired Medicaid IDs get flagged.

Offline Mode

No or Bad internet connection at patient's home? No worries, we've got your back. Use the offline mode.

Eliminate Data Re-Entry

Never re-enter the same information for multiple forms. Those will be auto-populated for the users.

Get Assessments Done FAST

With all the automations Aphelia offers, get the assessment done quicker than you ever did.

Calendar Notification

Aphelia connects with your outlook. As soon as caregivers are scheduled, it's in their calendar instantly.

*Technuf believes in customer success above all. Our highly talented development team is dedicated for any **ON DEMAND customization** to ensure the best user experience.*
